Marine / Sopep Spill Kits

Regulation 37 of MARPOL Annex I requires that oil tankers of 150 gross tonnage and above and all ships of 400 gross tonnage and above carry an approved Shipboard Oil Pollution Emergency Plan (SOPEP).

As a part of this contingency planning, vessels under 400' require a 7 barrel (11 OOL) Marine Spill Kit. Vessels over 400' require a 12 barrel (1900L) marine Spill Kit.

These spill kits contain a variety of oil only absorbents and PPE for addressing shipboard spills.

Robund Bunding Solution

Converting any area, or even your whole workshop or warehouse, into a securely bunded area has just become simple.

Unlike concrete and rubber alternatives, this new generation urethane bunding will not chip, split or crack.

Each kit comes complete with sealant adhesive and masonry anchors and step-by-step instructions

Pieces can be easily cut to size with a fine-tooth saw.
