

## Hydraulic Press

| Stock Code | Model   | Capacity (Ton) | Specification |     |      |      |      |     | Ram Stroke/ Motor (kW) | Weight (Kg) |
|------------|---------|----------------|---------------|-----|------|------|------|-----|------------------------|-------------|
|            |         |                | A             | B   | C    | D    | E    | F   |                        |             |
| AQ00856    | #152    | 6              | 820           | 560 | 550  | 320  | 510  | 67  | 115                    | 43          |
| AQ00857    | #153    | 10             | 1210          | 500 | 910  | 520  | 350  | 120 | 190                    | 104         |
| AQ00860    | #156    | 20             | 1960          | 500 | 930  | 510  | 1020 | 140 | 190                    | 150         |
| AQ00858    | #P30/SA | 30             | 2180          | 600 | 1300 | 695  | 1000 | 170 | 190                    | 280         |
| AQ00859    | #158    | 50             | 2110          | 850 | 1420 | 775  | 1135 | 205 | 190                    | 445         |
| AQ00855    | #160    | 100            | 2290          | 900 | 1740 | 1010 | 1055 | 285 | 215                    | 960         |
| AQ00862    | #156/ML | 20             | 1960          | 500 | 1100 | 510  | 1000 | 140 | 1.5kW                  | 190         |
| AQ00863    | #P30/ML | 30             | 2020          | 600 | 1600 | 695  | 1000 | 170 | 1.5kW                  | 320         |
| AQ00864    | #162    | 50             | 2130          | 850 | 1570 | 770  | 1135 | 210 | 1.5kW                  | 480         |
| AQ00868    | #164    | 100            | 2310          | 900 | 1930 | 1010 | 1055 | 285 | 3.0kW                  | 1000        |

\*For operation efficiency usage of  $\geq 50T$ , Motor operated press is recommended.
